

# IT DESKTOP NETWORKING & SECURITY

**6 Months. Multiple IT Certifications.  
Unlimited Opportunity.**

Attend Online  
No IT Experience Necessary

Monday-Thursday | Half Day  
Morning, Afternoon & Evening Tracks

## BECOME THE SOLUTION THAT EVERY NETWORK NEEDS.

The reliability and security of a network is central to the success of any organization. Those in IT specialist or IT Administrator roles now require a breadth of knowledge far greater than what was required only a short time ago. The IT Desktop Networking & Security Program includes coverage of IT, cloud, security, and network fundamentals providing students a strong foundation as they enter the IT field.

## ASSOCIATE IT JOB TITLES

Help Desk Analyst

IT Security Specialist

Desktop Administrator

Cloud Support Technician

## PROGRAM TIMELINE

Our 6-month IT Desktop Networking & Security program teaches students how to evaluate security policies, manage user authentication, perform preventative maintenance on networks and PCs, and much more. Here's a breakdown of your 6-month program.

### WEEK 1-6

#### IT Networking & Security:

Introduction to core hardware components, peripherals and connectors, computing devices, operating systems, network protocols, configuration, authentication, and wireless.

### WEEK 7-12

#### IT Networking & Security:

Students will learn about network authentication and security, access control, host and cloud security, disaster planning and recovery.

### WEEK 13-19

#### Microsoft Cloud Desktop

**Administration:** Topics include cloud services, different cloud models, Azure solutions, Windows 10 installation and configuration of users, security, and Windows 10 devices.

### WEEK 20-24

#### Microsoft Cloud Desktop

**Administration:** Coverage of network connectivity within Windows 10, as well as authentication, devices, and security. Topics also include Microsoft Intune, PowerShell commands, and Windows Firewall.
